300Mbps Wireless N Access Point
WF2220

Features:
- Incredible wireless high speed up to 300Mbps
- High transmission power to boost wireless signal for further distance
- Enhanced signal strength to penetrate walls and estimate WiFi dead zones
- High gain 5dBi detachable antenna design allowing for flexible antenna upgrade
- Multiple wireless modes- AP, Repeater, WDS and Multi-SSID(VLAN)
- Multi-SSID providing up to 3 separate networks for guests and friends
- Wireless schedule function helping you to control your wireless online time reasonably.
- Easy wireless security setup at a push of the WPS button
- Turbo button to improve the signal strength in a snap
- Passive PoE (Power over Ethernet) for flexible deployment
- Quick setup, with built-in web management page

What it does:
The netis 300Mbps Wireless N Access Point WF2220 provides long range, high performance wireless Internet access over large areas. It provides you multiple wireless modes including AP, Repeater, WDS and Multi-SSID, for flexible wireless network setup and deployment. Also, with the Turbo button, you can easily control the transmission power. Under the high power mode, you will enjoy much better network experience in large homes, multi-floor offices or warehouses.

Specifications:

Hardware
- Standards: IEEE 802.11b, IEEE 802.11g, IEEE 802.11n
- Interface:
  - 1 * 10/100Mbps Auto MDI/MDIX RJ45 LAN port
- LED Indicator:
  - PWR, Turbo, WPS, LAN
- Wireless Security:
  - 64/128-bit WEP
  - WPA-PSK/WPA2-PSK (TKIP/AES)
  - SSID Broadcast Enable/Disable
  - Wireless MAC Filtering

Software
- DHCP Client, DHCP Server
- Firmware Upgrade
- Backup & Restore

Package
- 1* WF2220
- 1* 5dBi Detachable Antenna
- 1* 12V/1A Power Adapter
- 1* PoE Power Injector
- 1* Ethernet Cable
- 1* Quick Installation Guide
- 1* Smart Phone, Tablet

Features
- Quick setup, with built-in web management page
- Passive PoE (Power over Ethernet) for flexible deployment
- Easy wireless security setup at a push of the WPS button
- Turbo button to improve the signal strength in a snap
- Flexible PoE (Power over Ethernet) for flexible deployment
- Quick setup, with built-in web management page

Topological Graph

Typical Network
Turn existing wired network into wireless network
(With AP/Multi-SSID supported)

Extend existing wireless network
(With Repeater/WDS supported)
